The Future of Signing Financial Statements

Product Pack

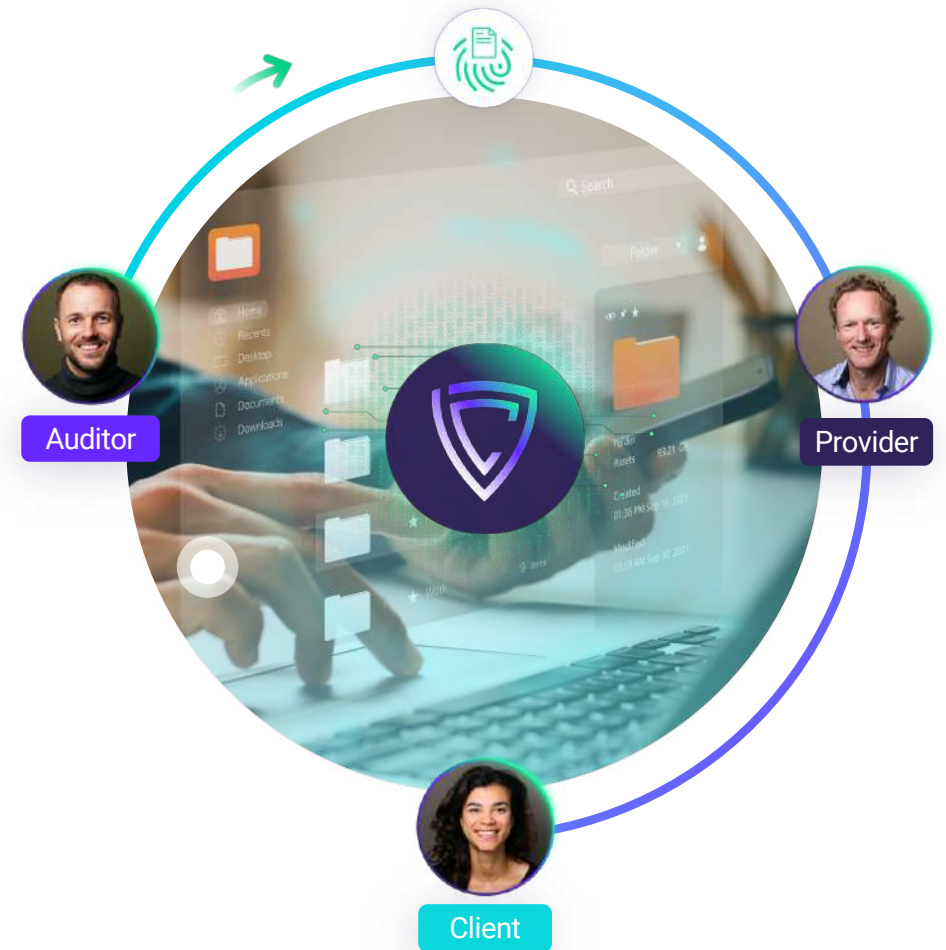

Seamless Electronic Signatures Securely

Signing Documents allows auditors, accountants and clients to sign unlimited letters or documents securely, electronically and instantly.

All parties can sign engagement letters, statements, certificates and tax returns in a fraction of the time. It's easy to drag and drop signature blocks into position and distribute documents for signature instantly.

Signatories are notified by email to receive documents. Simply upload your signature via mobile or desktop to produce a 'real signature' electronically.

A Secure & Instant Signature Experience

Value Created

✓ **Sign Multiple Documents**
in a single click

Process Transformation

Manual Process

The New Way

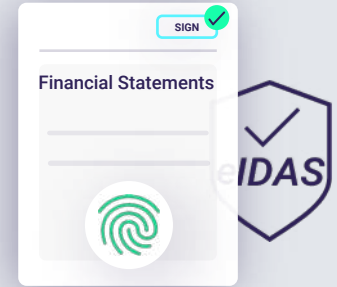

Signatures Securely & Efficiently

Circuit leverages real signatures that can be **uploaded in real time** via desktop or mobile. Signatures are clean and crisp every time, giving you **peace of mind**.

Compliant & Secure

Circuit's Signing Documents solution is eIDAS compliant with the use of secure login pages; encryption and global unique identifiers

Audit Trail

Full history trail, documenting when documents were drafted, digitally distributed and electronically signed by all parties.

Holistic Document Management

Documents stored and accessible - a centralised and secure repository.

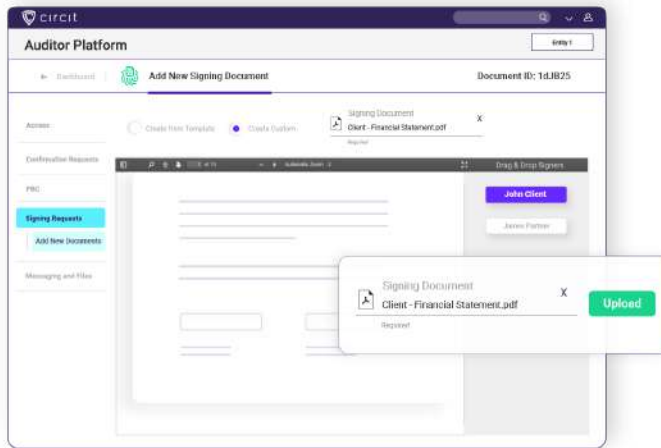

“Circuit's signing documents e-signature solution is a much more efficient option for sending documents for signature”

Deirdre McDermott, Audit Director, OSK

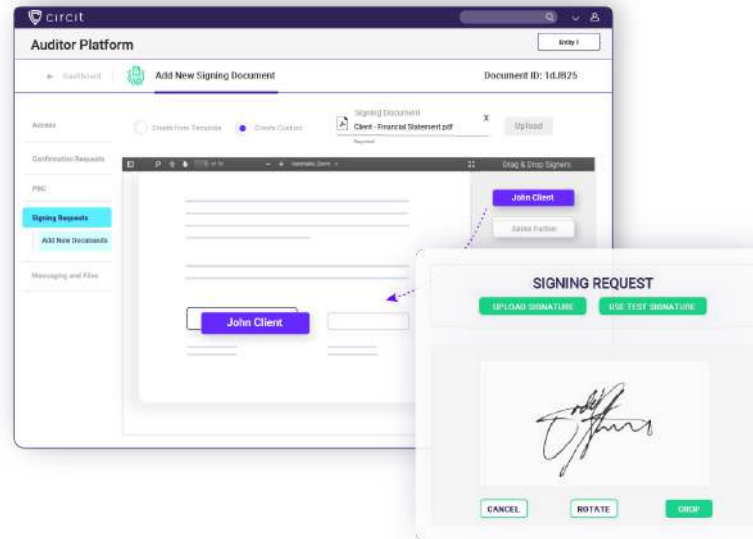

Getting Started is Simple

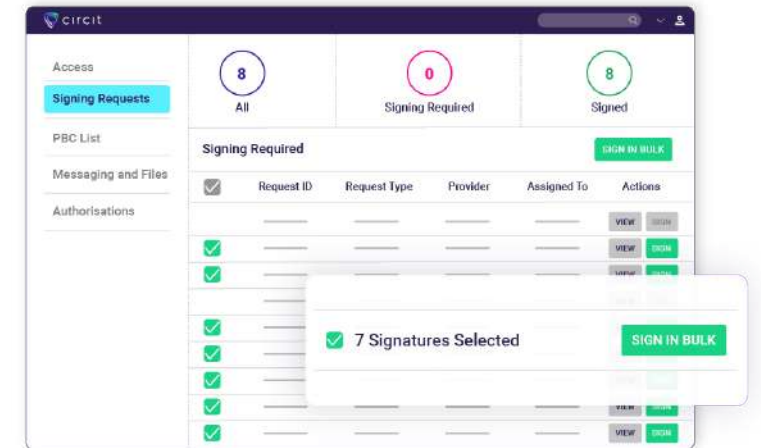

1. Auditor creates SD request

Auditor creates Signing Documents request. Draft multiple documents, review and send for signature digitally in a few moments.

2. Client logs into Circuit to upload signature

Client can upload signature via mobile or desktop and crop into place.

3. Sign multiple documents in a single click

Clients and partners can sign documents faster than ever before, producing a clean, crisp real signature.

Security & Compliance at the Core

Infrastructure and Backups

Circuit uses multiple data centres with reliable power sources and backup systems with 99.9% SLAs and geo-redundancy. Physical servers are located in Dublin, Ireland and failover servers are located in the Netherlands. A full backup of the system is taken every night with transaction log backups taken every fifteen minutes.

Licensed & Certified

Circuit is a registered Account Information Service Provider (AISP) under the European Union (Payment Services) Regulations 2018 [S.I. No. 6 of 2018].
Central Bank of Ireland Code - C176625

Circuit's e-signature

Our automated audit trail and certificate of completion ensures you are compliant at every stage without any effort.

Circuit's e-signature solution is eIDAS compliant with the use of secure login pages; encryption and global unique identifiers.

A certificate of completion is attached to each document as evidence of the security checks that are in place and the verifiable ID.
